OM PATEL

mopatel2002orp@gmail.com | +91 7016032213 | Vadodara, Gujarat | linkedin.com/in/om-patel-7818b2250

PROFESSIONAL SUMMARY

Final-year Computer Engineering student with strong skills in software development, data structures, and problem-solving. Eager to apply knowledge to real-world tech challenges. Skilled in building efficient, reliable systems using emerging technologies.

EDUCATION

Computer Engineering (BE) | Vadodara Institute of Engineering

HSC (Gujarat Board) | Alembic Vidyalaya

SSC (Gujarat Board) | Alembic Vidyalaya

SKILLS

Domains: Data Analysis, Web Development, AI/ML, Data Science
Programming Languages: Python, C, C++, Java, JavaScript, HTML, PHP
Tools & Platforms: VS Code, Antigravity, Tableau, Jupyter Notebook, Power BI
Soft Skills: Strategic Thinking and Problem Solving, Creative and Innovative Thinking, Effective Communication

PROFESSIONAL EXPERIENCE

Python with Data Analytics Intern | HUNEXTURE

- Analyzed large datasets using Python (Pandas, NumPy) to extract meaningful insights and support data-driven decision making.
- Performed data cleaning, preprocessing, and transformation to improve data quality and analysis accuracy.
- Created data visualizations using Matplotlib and Seaborn to present trends, patterns, and business insights.

AI/ML Intern | IBM

- Applied AI/ML principles to develop and optimize models for data analysis and predictive modeling.
- Contributed to innovative solutions within a leading technology firm.

Full Stack Development Intern | Career Naksha

- Worked as a MERN Stack Developer intern, building and maintaining full-stack web applications.
- Developed backend and frontend features using MongoDB, Express.js, React, and Node.js.

PROJECTS

Employee Management System | MongoDB, Express.js, React, Node.js

- Built a full-stack Employee Management System featuring user authentication, role-based access, and employee data management.
- Designed and developed robust APIs and dynamic frontend components for seamless management.

Night Hunger | HTML, JavaScript, CSS, MongoDB

- Developed a pre-launch food ordering website integrating intuitive user interfaces and backend functionality.
- Leveraged MongoDB as the backend database technology to handle ordering mechanisms.

Computer Center Management System | Desktop Application (Full-Stack)

- Developed a comprehensive management system for a computer training institute to handle student inquiries, admissions, course management, and fee collection.
- Implemented modules for certificate generation, reporting, and course tracking to streamline administrative operations.

AI Health Care Chatbot | AI-Based Web Application

- Developed an AI-powered healthcare chatbot to provide real-time symptom guidance and basic medical insights through an interactive chat interface.
- Implemented community health analytics and data simulation features to track trends and enhance user engagement.

DataSense Analytics Dashboard | Python, Flask

- Developed a real-time analytics dashboard using Flask to visualize machine learning model performance with metrics like accuracy, F1-score, and ROC-AUC.
- Integrated multiple algorithms and interactive charts for comparative analysis and improved data-driven decision-making.

Customer Purchase Behavior Dashboard | Power BI

- Developed an interactive Power BI dashboard to analyze customer purchasing patterns, retention trends, and key business metrics like revenue, shipping cost, and return rates.
- Visualized data using dynamic charts, filters, and geographic insights to support data-driven decision-making and business strategy.

LANGUAGES

English, Gujarati, Hindi
